Follow in the footsteps of Aphrodite, the mythological Olympian goddess of love and beauty and protectress of Cyprus. The route focuses on the archaeological sites dedicated to the ancient cult of Aphrodite and includes Palaipafos (Kouklia), Amathous and Kition. There are quite a few links to other sites and museums with artifacts related to the goddess. Wander through layers of history, culture and mythology as you learn all about her birth, her character, the rituals connected with her cult, as well as plants and seashells associated with her.
